Beta Tester Walkthrough

April 2026 Feature Release — 4 New Features

Feature	Route	What It Does
Goal Pilot	/goal-pilot/	Describe your goal in plain language, get a step-by-step tool chain
Certificate Verification	/verify/	Public portal to verify ICREA certificate holder credentials via URL or QR code
CE Equivalency Reference	/ce-equivalency/	Maps ICREA tiers and Scenario Labs to NAR, CCIM, and state CE standards
Schools & Institutions	/schools/	B2B landing page with Lab-as-a-Service pitch, pricing tiers, and contact form

HOW TO USE THIS DOCUMENT

This walkthrough covers every new feature added in the April 2026 release. Each section includes annotated screenshots showing what the feature looks like, how users access it, and where it fits in the platform. Share this document with beta testers, stakeholders, or partners who need a visual tour of the new capabilities.

Where to Find These Features

- Goal Pilot — Homepage hero button + navigation bar (teal "Goal Pilot" link)
- Certificate Verification — Certificate page hero ("Verify a Certificate" button) + homepage footer
- CE Equivalency — Certificate page hero ("CE Equivalency Reference" button) + homepage footer
- Schools & Institutions — Homepage footer ("For Schools & Institutions" link)

CONFIDENTIAL

Table of Contents

1. Homepage Integration

Where users discover the new features

2. Goal Pilot

Rule-based goal-to-tool-chain routing

3. Certificate Verification Portal

Public credential verification with QR codes

4. CE Credit Equivalency Reference

ICREA-to-industry CE alignment

5. Schools & Institutions (B2B)

Lab-as-a-Service landing page

6. Mobile Responsiveness

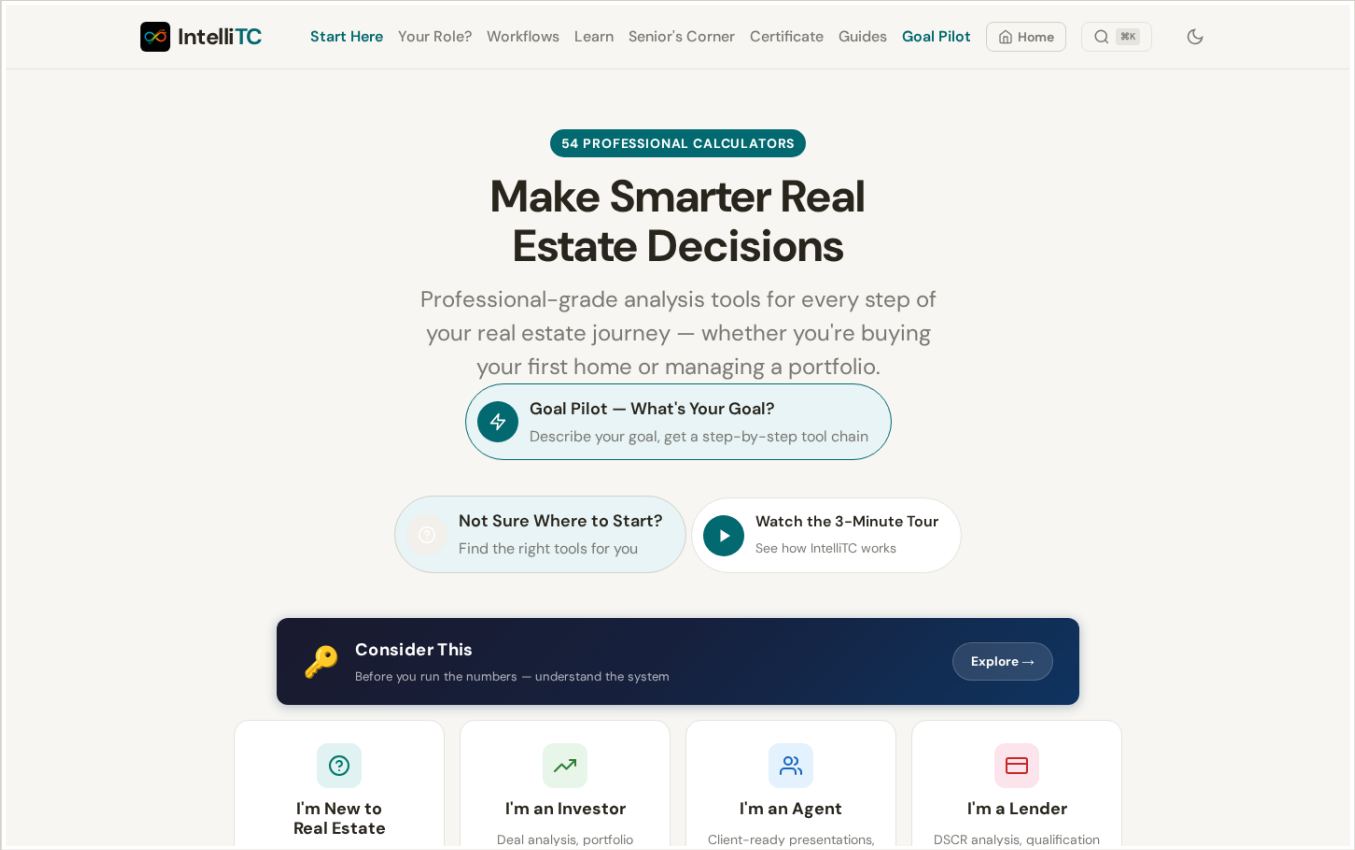
All features on mobile devices

1. Homepage Integration

All four features are wired into the existing site navigation so users discover them naturally. Goal Pilot is the most prominent — it occupies the primary hero CTA position and has its own nav link. The remaining three features are accessible from the homepage footer and the Certificate page.

Homepage Hero — Goal Pilot CTA

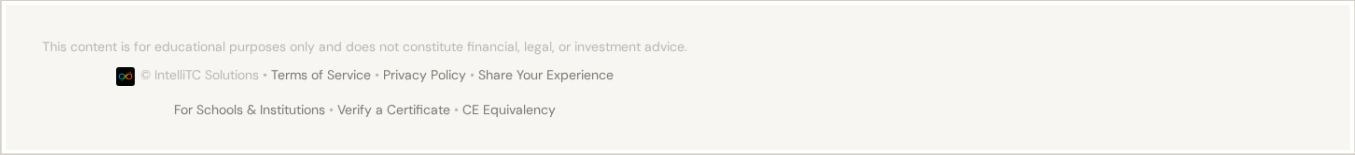
Goal Pilot now occupies the primary action position in the homepage hero, above the existing "Not Sure Where to Start?" wizard. The lightning bolt icon and teal border make it visually distinct. The navigation bar also includes a teal-highlighted "Goal Pilot" link at the far right.



Homepage hero with Goal Pilot as the primary CTA. Navigation bar shows the new "Goal Pilot" link in teal.

Homepage Footer — Institutional Links

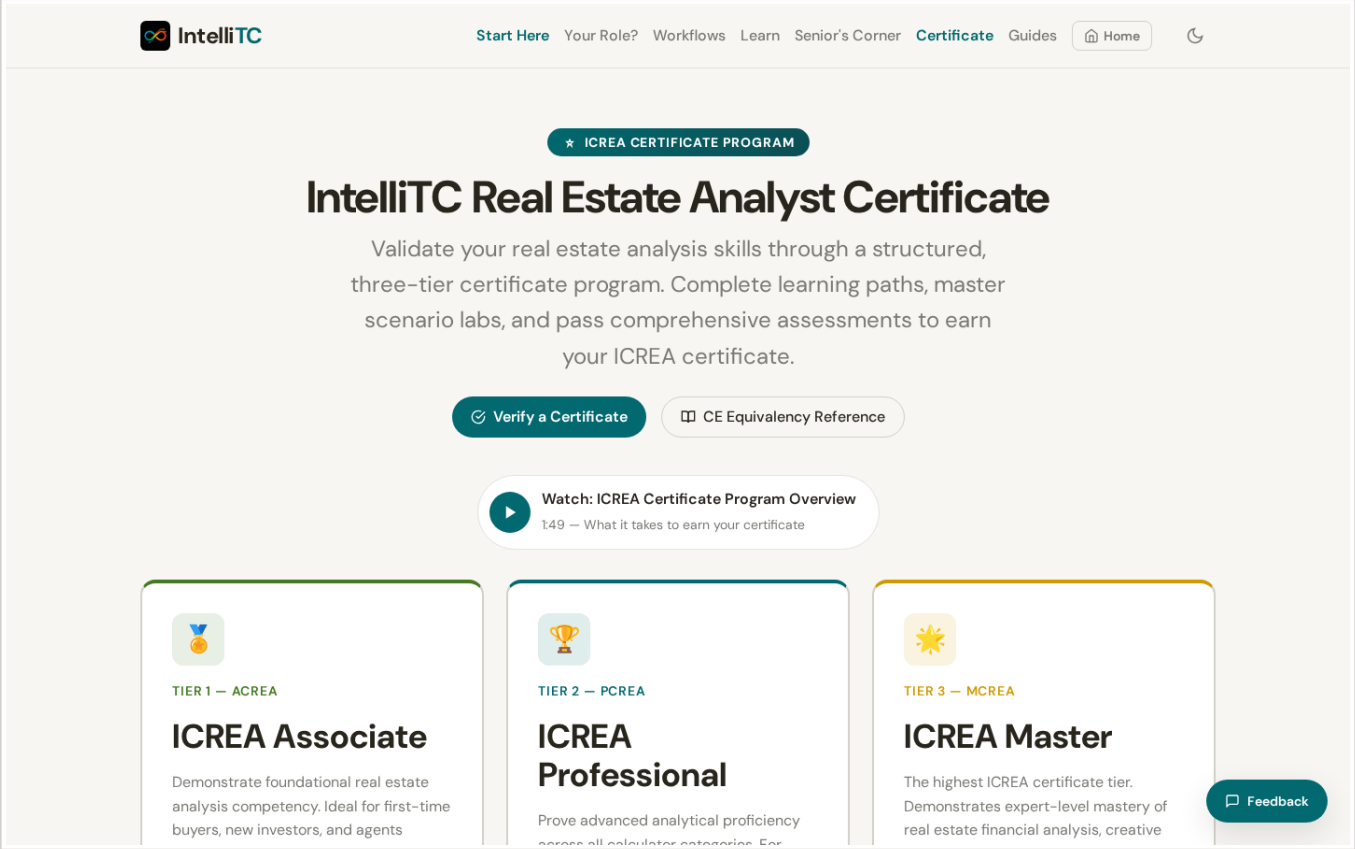
A new second line in the footer provides access to the three institutional-facing features: For Schools & Institutions, Verify a Certificate, and CE Equivalency. These are intentionally placed in the footer rather than the main nav to keep the primary navigation clean for end users.



Footer with new institutional links: For Schools & Institutions, Verify a Certificate, CE Equivalency.

Certificate Page — New Action Buttons

The ICREA Certificate Program page now includes two new buttons directly below the hero subtitle: a teal "Verify a Certificate" button and an outlined "CE Equivalency Reference" button. These connect the certificate experience to the verification portal and CE alignment data.



Certificate page hero with new "Verify a Certificate" and "CE Equivalency Reference" buttons.

2. Goal Pilot

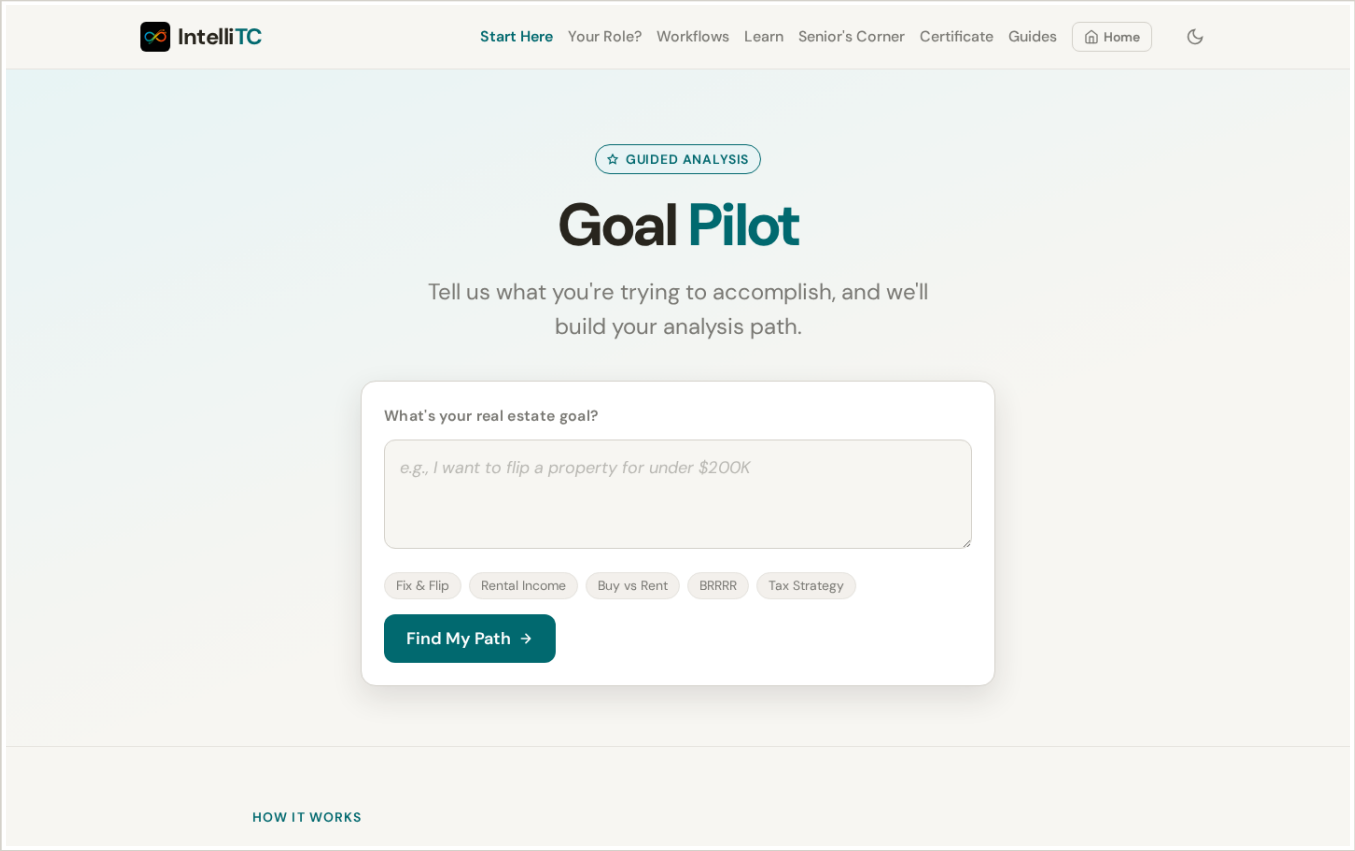
WHAT IT IS

A rule-based "What's Your Goal?" entry point. Users describe their real estate goal in plain language, and the system matches it to a recommended sequence of calculators with step-by-step guidance. This is entirely client-side — no AI, no backend, no API calls. It previews the full Goal Pilot AI experience planned for Phase 3.

Route: /goal-pilot/

Landing State

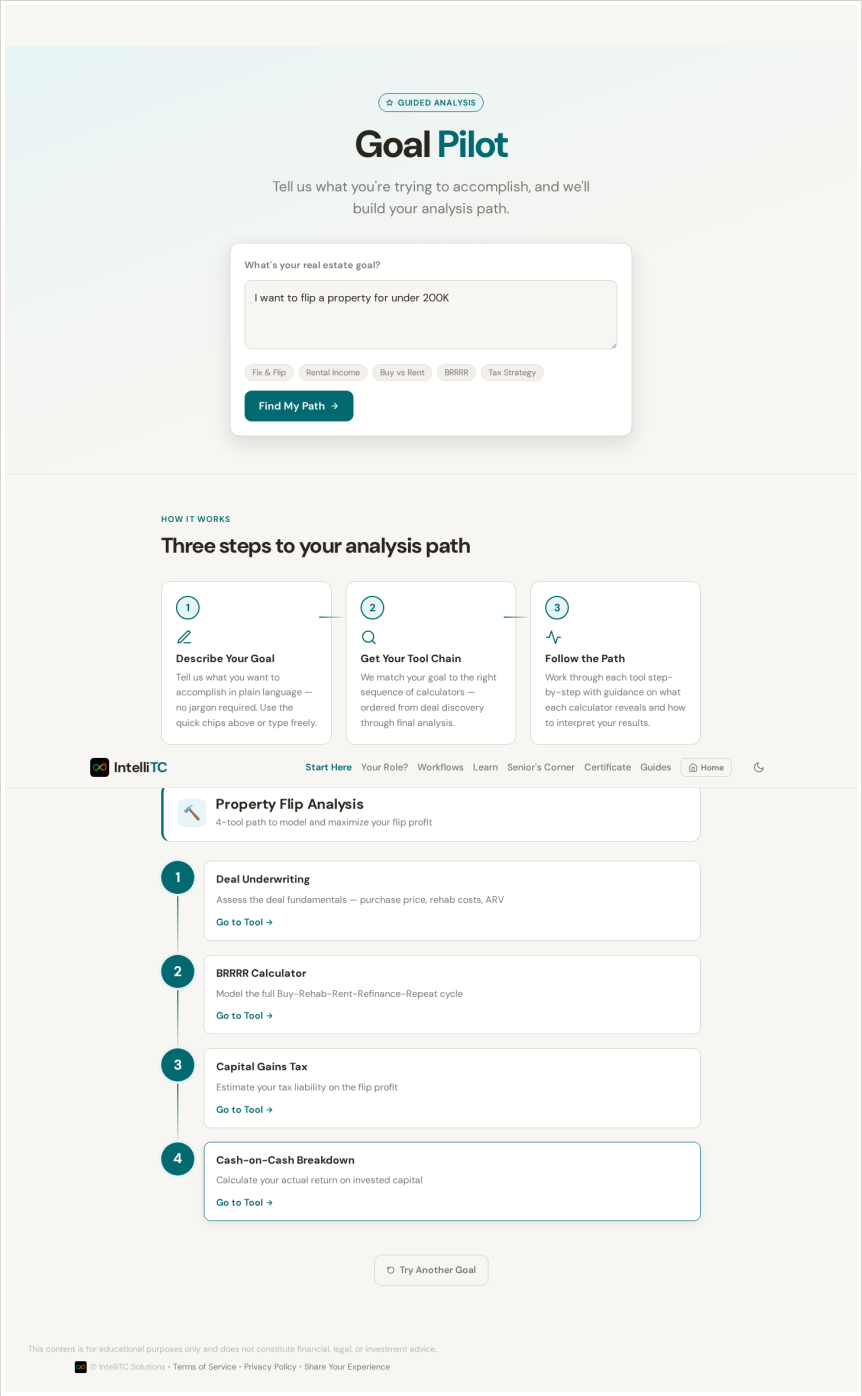
The hero features a gradient background with a "GUIDED ANALYSIS" badge, the "Goal Pilot" title (with "Pilot" in teal italic), a text area for free-form input, five quick-fill chips (Fix & Flip, Rental Income, Buy vs Rent, BRRRR, Tax Strategy), and a "Find My Path" button. Below the hero, a "How It Works" section explains the three-step process.



Goal Pilot landing page — text input, quick-fill chips, and "Find My Path" button.

Result: Property Flip Analysis

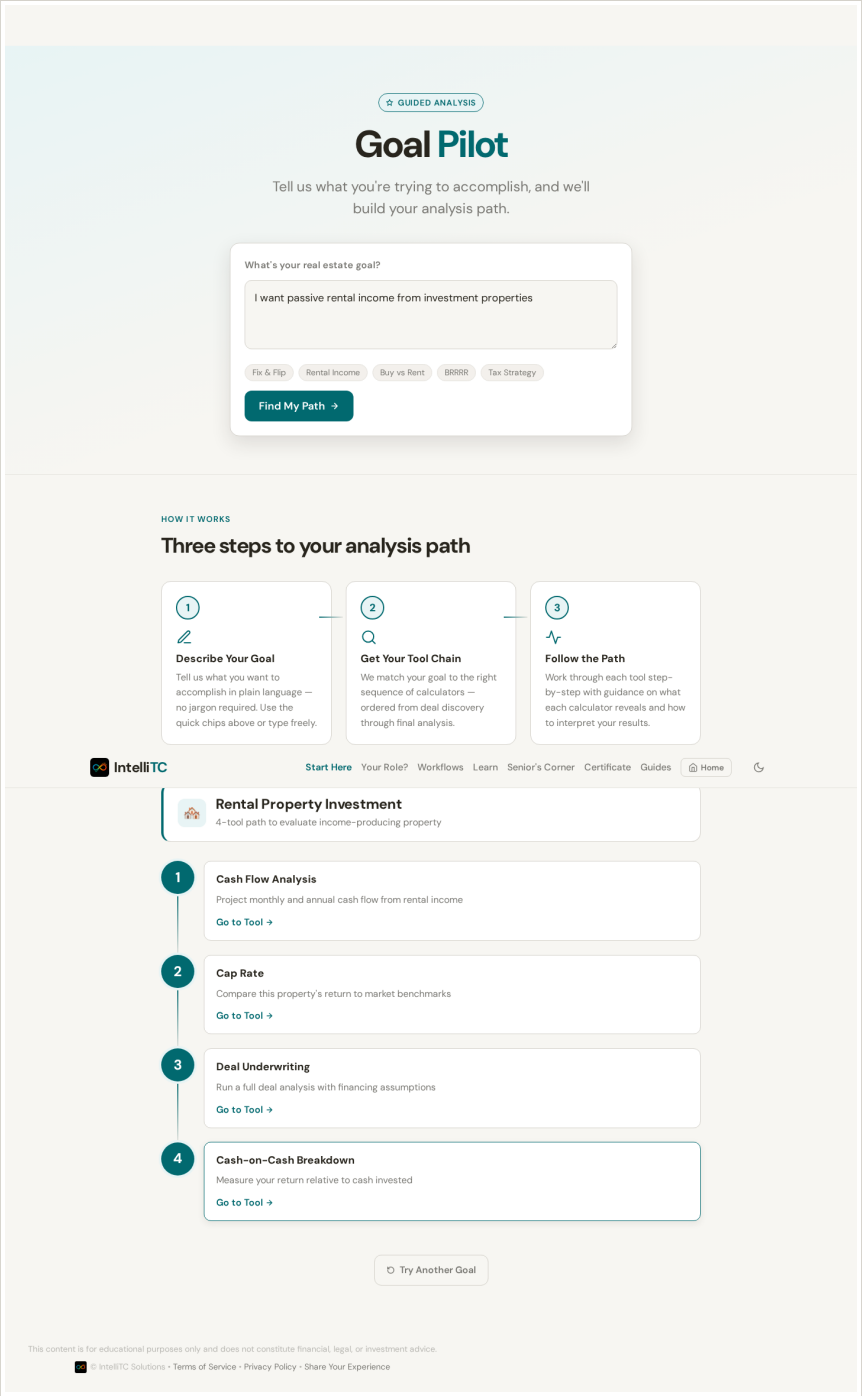
When a user types "I want to flip a property for under 200K," the keyword matching engine identifies "flip" and routes to the Property Flip Analysis path. The result shows a numbered 4-step tool chain: Deal Underwriting → BRRRR Calculator → Capital Gains Tax → Cash-on-Cash Breakdown. Each step includes a description of what it accomplishes and a direct "Go to Tool →" link.



Goal Pilot result for "flip a property" — 4-step tool chain with direct links to each calculator.

Result: Rental Property Investment

Typing "I want passive rental income from investment properties" triggers the Rental Property Investment path. The tool chain: Cash Flow Analysis → Cap Rate → Deal Underwriting → Cash-on-Cash Breakdown. The system uses weighted keyword scoring — longer, more specific matches score higher so "passive rental income" beats a generic single-word match.



Goal Pilot result for "passive rental income" — Rental Property Investment tool chain.

Supported Goal Paths (8 Total)

Path	Trigger Keywords	Tools in Chain
Property Flip	flip, rehab, fix and flip, arv	4 tools
Rental Investment	rental, cash flow, passive income	4 tools
Buy vs Rent	buy or rent, first time, homebuyer	4 tools
Creative Finance	seller finance, subject to, wrap	4 tools
Commercial / Land	land, commercial, development	4 tools
Tax Strategy	tax, 1031, depreciation, cost seg	4 tools
Market Analysis	market, comp, cma, valuation	4 tools
BRRRR Strategy	brrrr, refinance, seasoning	4 tools

3. Certificate Verification Portal

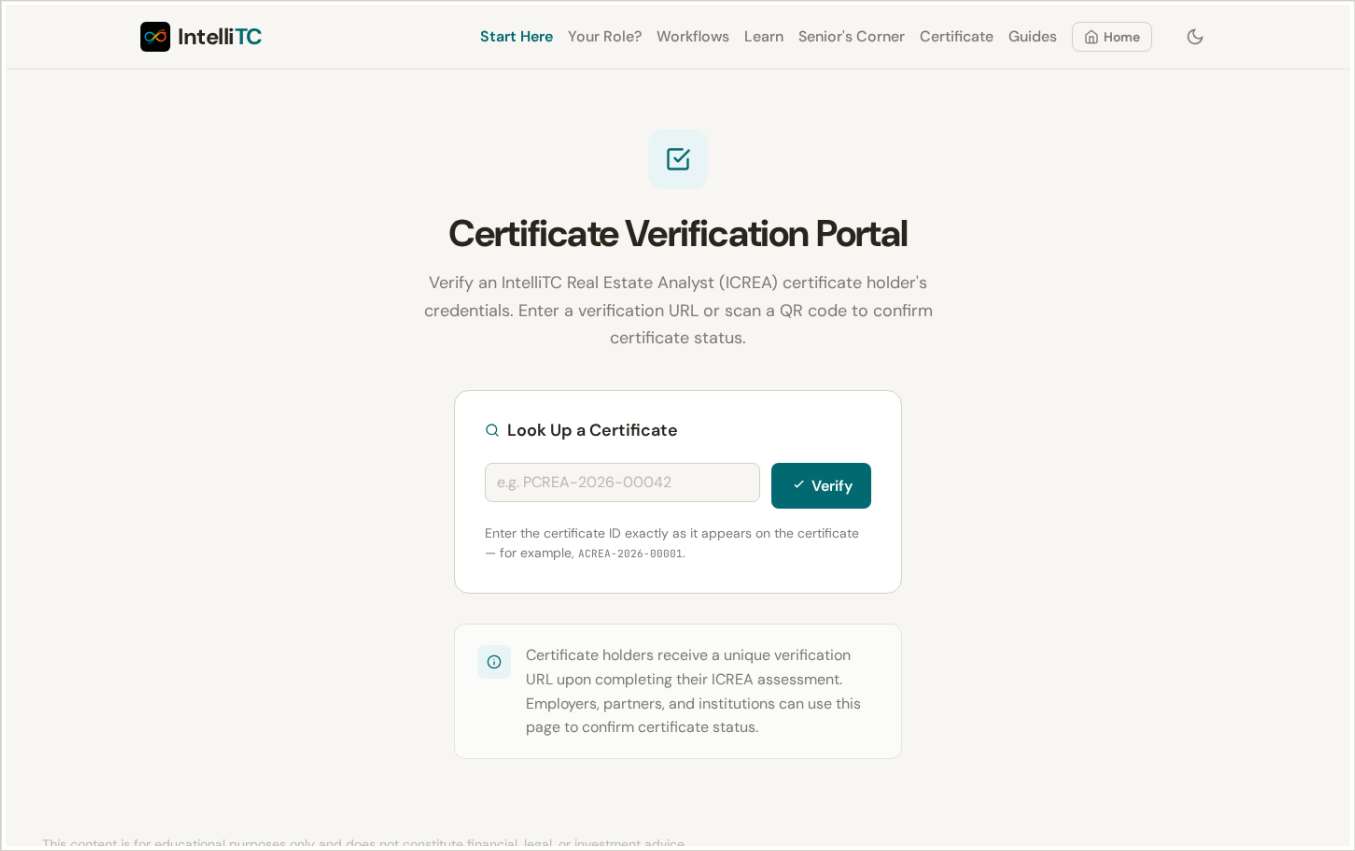
WHAT IT IS

A public verification page where employers, partners, and institutions can confirm an ICREA certificate holder's status. Certificate data is encoded in URL parameters — no database, no backend. Certificate holders receive a unique verification URL and QR code upon completion. This transforms the ICREA Certificate from a personal achievement into a professionally verifiable credential.

Route: /verify/

Landing State (No Parameters)

When a user visits /verify/ without any URL parameters, they see a clean landing page with the title "Certificate Verification Portal," an explanation of what it does, and a certificate ID lookup form. The page explains that certificate holders receive a unique verification URL upon completing their assessment.



Verification portal landing page — lookup form and explanation of the URL-based verification system.

Verified State — All Three Tiers

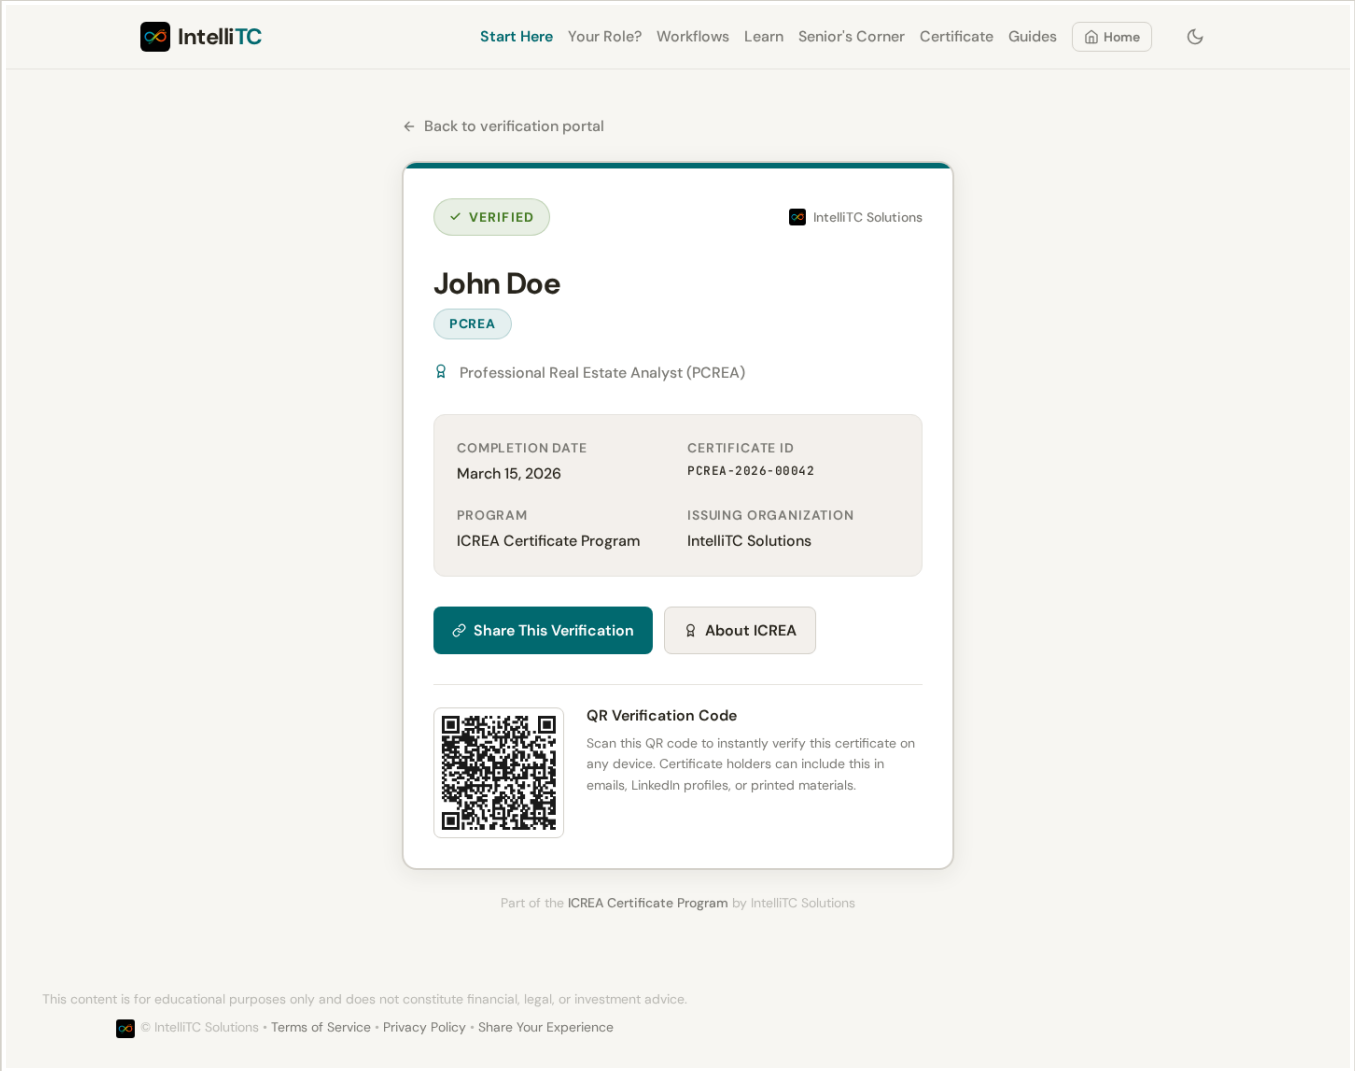
When a verification URL contains all four parameters (name, tier, date, id), the page displays an official-looking verification card. The card includes a green "VERIFIED" badge, the holder's name, tier designation with color coding, completion date, certificate ID, program name, issuing organization, a "Share This Verification" button (copies URL to clipboard), and a QR code generated inline via canvas.

URL Format:

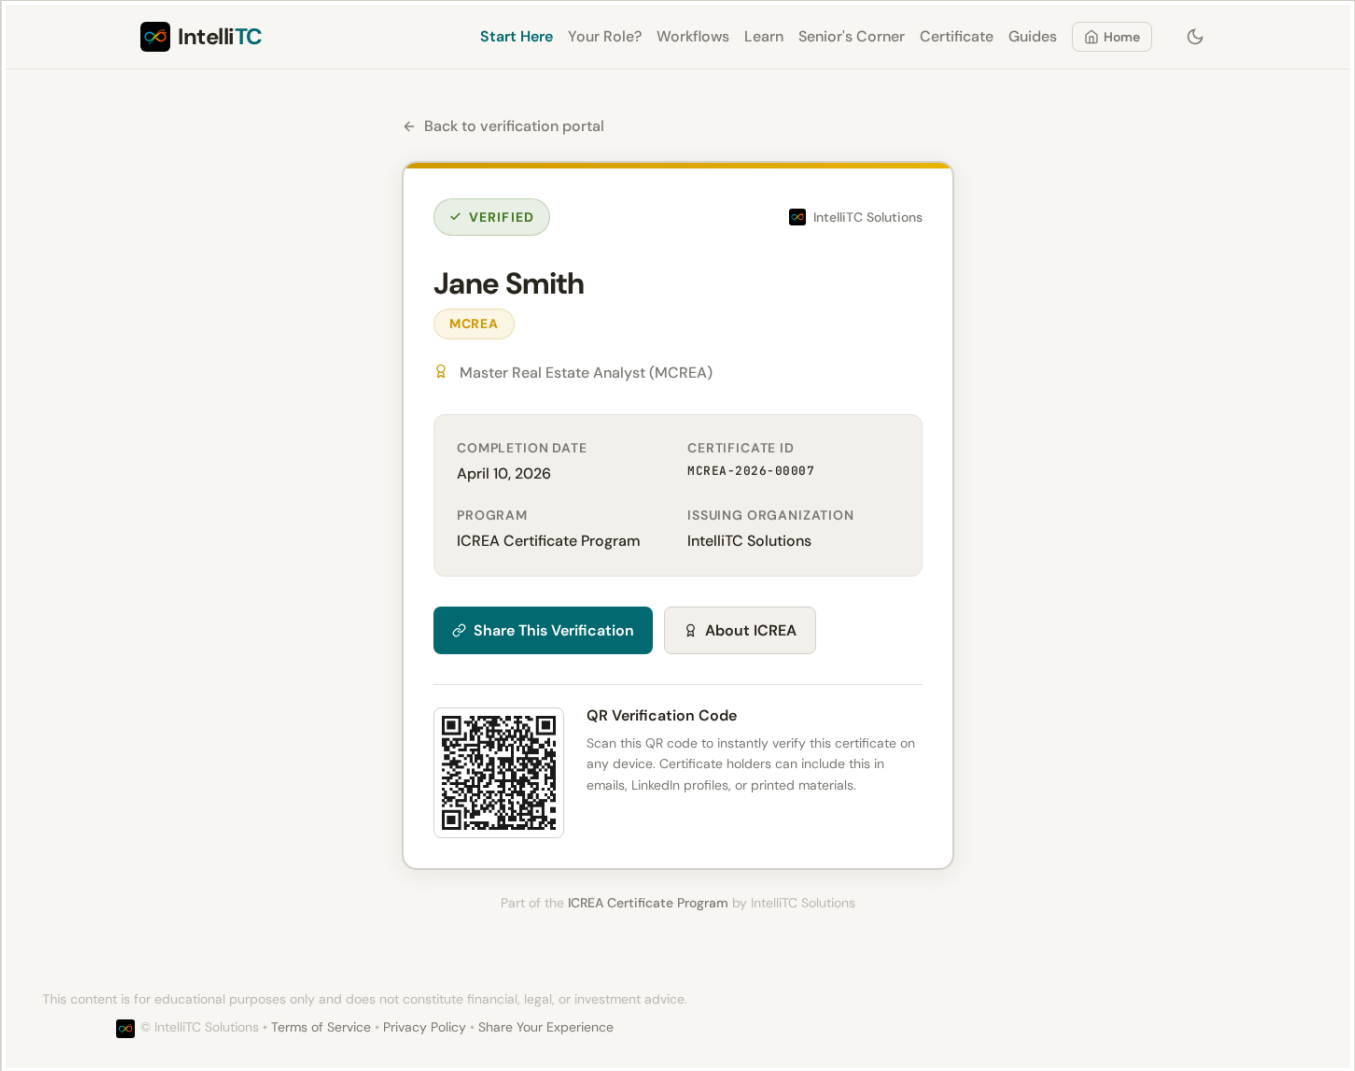
intellitcsolutions.com/verify/?name=John+Doe&tier=professional&date=2026-03-15&id=PCREA-2026-00042

Tier Color Coding

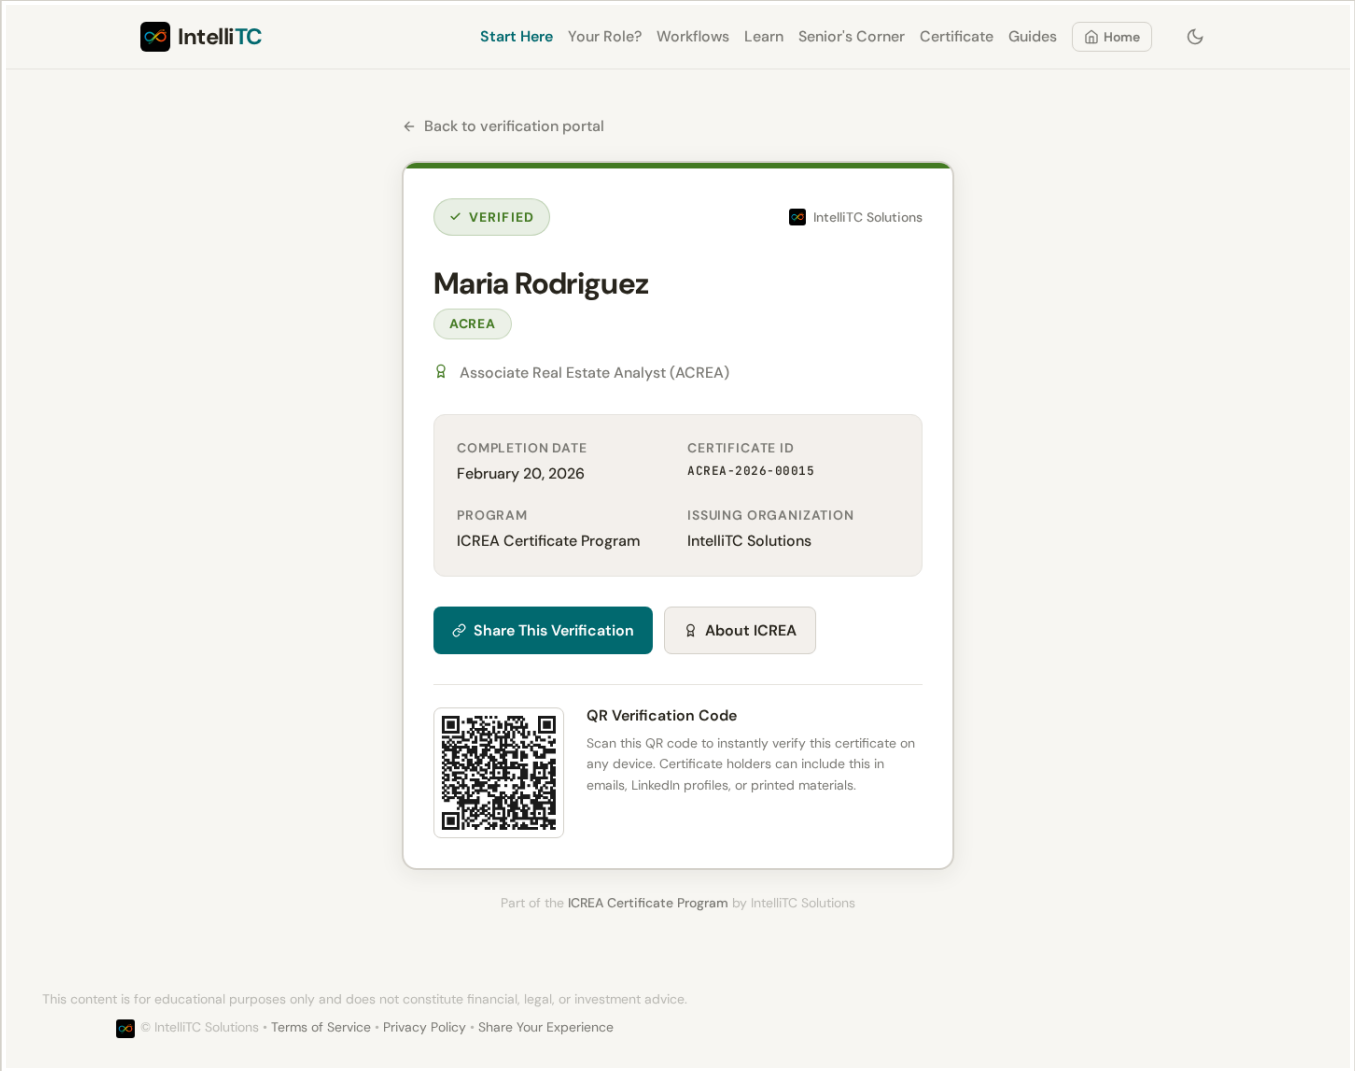
Tier	Abbreviation	Accent Color	Full Title
Associate	ACREA	Green (#437a22)	Associate Real Estate Analyst
Professional	PCREA	Teal (#01696f)	Professional Real Estate Analyst
Master	MCREA	Gold (#D19900)	Master Real Estate Analyst



Professional (PCREA) verification card — teal accent bar, verified badge, QR code, share button.



Master (MCREA) verification card — gold accent bar, full credential details, and QR code.



Associate (ACREA) verification card — green accent bar.

4. CE Credit Equivalency Reference

WHAT IT IS

A reference page showing how the ICREA Certificate Program tiers and 12 Scenario Lab exercises align with industry continuing education (CE) standards from NAR, CCIM Institute, state licensing boards, and the Appraisal Institute. The program includes 375 questions across five assessment formats (multiple choice, scenario, calculator output, workflow, and self-graded analysis) drawn from pools of 100 (Associate), 125 (Professional), and 150 (Master). This page supports B2B institutional sales by demonstrating educational rigor and CE credit potential.

Route: /ce-equivalency/

Page Sections

- Tier CE Hour Alignment — Maps each ICREA tier to estimated CE hours (Associate: 8–12 hrs / 40 questions from pool of 100, Professional: 16–24 hrs / 50 questions from pool of 125, Master: 30–40 hrs / 60 questions from pool of 150)
- Scenario Lab CE Mapping — All 12 exercises mapped to specific CE topic areas across Investment Analysis, Tax & Legal, and Market & Risk categories
- Organization Alignment Grid — NAR, CCIM Institute, State Licensing Boards, and Appraisal Institute alignment cards
- Methodology Note — Explains how CE hour estimates are calculated. Disclaimer directs users to verify CE credit acceptance with their affiliated organization.
- CTA — Links to Lab-as-a-Service (/schools/) and ICREA Certificate Program (/certification/)

CE EQUIVALENCY REFERENCE

CE Credit Equivalency Reference

See how the ICREA Certificate Program aligns with national and state continuing education standards. Our curriculum is designed to meet or exceed the analytical rigor required by leading real estate organizations.

This reference is for informational purposes. Formal CE credit recognition is pursued on an ongoing basis with each organization listed.

ICREA CERTIFICATE PROGRAM

Tier CE Hour Alignment

Each ICREA certificate tier is mapped to estimated CE hour equivalencies and compared against recognized industry standards.

Associate (ACREA) | Professional (PCREA) | Master (MCREA)

ICREA CERTIFICATE TIER	EST. CE HOURS	COMPARABLE STANDARDS
Associate (ACREA)	8–12 hrs	→ State pre-licensing supplemental education → NAR intro-level electives
Professional (PCREA)	16–24 hrs	→ CCIM intro courses (CI 101/102 equivalent depth) → State broker CE requirements
Master (MCREA)	30–40 hrs	→ CCIM advanced analysis (CI 103/104 equivalent depth) → CRE designation program depth

SCENARIO LAB

Scenario Lab CE Topic Mapping

All 12 Scenario Lab exercises map to specific CE topic areas recognized by state licensing boards and national organizations.

Investment Analysis Scenarios — 4 exercises

- 01 **Cash Flow Modeling** — Maps to: Real estate finance CE, investment analysis
- 02 **Deal Underwriting** — Maps to: Broker-level transaction analysis CE
- 03 **BRRRR Strategy** — Maps to: Investment strategy CE, portfolio management
- 04 **Comparative Market Analysis** — Maps to: Appraisal/valuation CE, market analysis

Tax & Legal Scenarios — 4 exercises

- 05 **Capital Gains Optimization** — Maps to: Tax planning CE, IRC Section 1031
- 06 **1031 Exchange Planning** — Maps to: Tax-deferred exchange CE (IRS requirements)
- 07 **Cost Segregation Analysis** — Maps to: Advanced tax strategy CE, depreciation
- 08 **Creative Finance Structuring** — Maps to: Transaction structuring CE, contract law

Market & Risk Scenarios — 4 exercises

- 09 **Market Valuation** — Maps to: Appraisal CE, BPO methodology
- 10 **Risk Assessment** — Maps to: Risk management CE, due diligence
- 11 **Portfolio Analysis** — Maps to: Investment management CE, diversification
- 12 **Lease Analysis** — Maps to: Commercial leasing CE, lease structuring

INDUSTRY ALIGNMENT

Organization Alignment Grid

The ICREA Certificate Program is benchmarked against CE requirements from leading national real estate organizations and state licensing authorities.

National Association of Realtors — NAR

- **Code of Ethics Requirement** NAR — IntelliTC's ethical analysis framework supports CE ethics requirements through scenario-based decision-making exercises.
- **Designation Electives** NAR — ICREA certificate tiers align with ABR, SRS, and investment-focused elective depth across all three program levels.

CCIM Institute — CCIM

- **CI 101 Financial Analysis** CCIM — PCREA tier covers comparable analytical depth to CI 101 financial modeling and underwriting methodology.
- **CI 102 Market Analysis** CCIM — CMA and market tools provide equivalent analytical rigor to CI 102 market segmentation and demand analysis.
- **CI 103 Investment Analysis** CCIM — MCREA tier addresses advanced investment modeling methods comparable to CI 103 investment decision analysis.
- **CI 104 Investment Strategy** CCIM — Portfolio and strategy scenarios match CI 104 depth in acquisition, disposition, and long-term investment strategy.

State Licensing Boards — State CE Requirements

- **Pre-Licensing Supplemental** State — ACREA tier supplements state pre-licensing education with practical analytical skills not covered in standard courses.
- **Post-Licensing CE** State — PCREA and MCREA tiers meet the analytical CE requirements in most states for post-licensing continuing education.
- **Broker-Level CE** State — MCREA tier exceeds typical broker-level continuing education standards in real estate finance and investment analysis.

Appraisal Institute — AI

- **Quantitative Analysis** AI — IntelliTC's calculator suite covers quantitative methods comparable to Appraisal Institute analytical standards for income property valuation.
- **Market Analysis** AI — CMA and valuation tools align with appraisal methodology standards for market trend analysis, comparable selection, and adjustment reasoning.

METHODOLOGY

How CE Hour Estimates Are Calculated

Estimation Approach

CE hour equivalencies are estimated based on the time required to complete all learning paths, scenario lab exercises, and assessments within each ICREA certificate tier. These estimates factor in study time, hands-on calculator practice, and assessment preparation. IntelliTC Solutions actively pursues formal CE credit recognition partnerships with state licensing boards and national organizations.

Ready to integrate ICREA into your curriculum?

Bring the ICREA Certificate Program to your institution. Our Lab-as-a-Service model makes it easy to add real-world analytical rigor to any real estate program.

5. Schools & Institutions (B2B)

WHAT IT IS

A dedicated B2B landing page that pitches IntelliTC's Lab-as-a-Service to real estate schools, brokerages, and training organizations. Includes a problem/solution narrative, feature showcase, live embed demo, three licensing tiers with pricing, a stats strip, and a contact form.

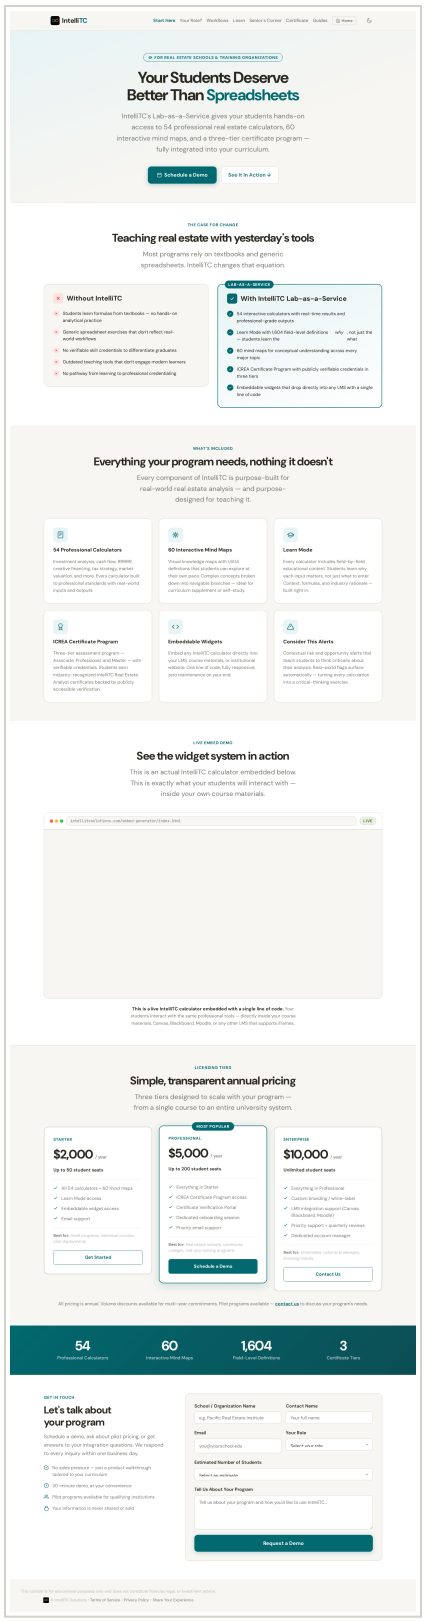
Route: /schools/

Page Sections

- Hero — "Your Students Deserve Better Than Spreadsheets" with CTA to schedule a demo
- Problem / Solution — Side-by-side comparison of teaching without vs. with IntelliTC
- What's Included — 6 feature cards: 54 Calculators, 60 Mind Maps, Learn Mode, ICREA Certificate Program, Embeddable Widgets, Consider This Alerts
- Live Embed Demo — Actual embedded calculator iframe showing the widget system in action
- Licensing Tiers — Starter ($2,000/yr), Professional ($5,000/yr, highlighted), Enterprise ($10,000/yr)
- Stats Strip — 54 Professional Calculators | 60 Interactive Mind Maps | 1,604 Definitions | 3 Certificate Tiers
- Contact Form — Organization name, contact, email, role, estimated students, message — submits via mailto

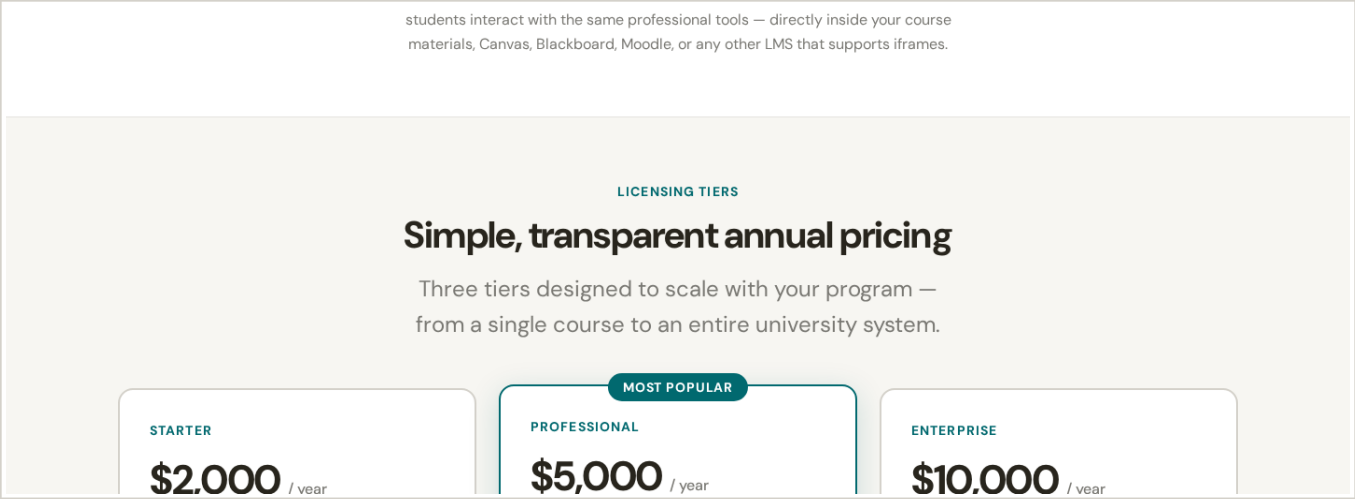
Licensing Tiers

Tier	Price	Seats	Key Includes
Starter	$2,000/yr	Up to 50	All 54 calculators + mind maps, Learn Mode, email support
Professional	$5,000/yr	Up to 200	Everything in Starter + ICREA Certificate Program, Verification Portal, dedicated onboarding
Enterprise	$10,000/yr	Unlimited	Everything in Professional + white-label, LMS integration, priority support



Schools & Institutions full page — hero, problem/solution, features, live demo, pricing, stats, contact form.

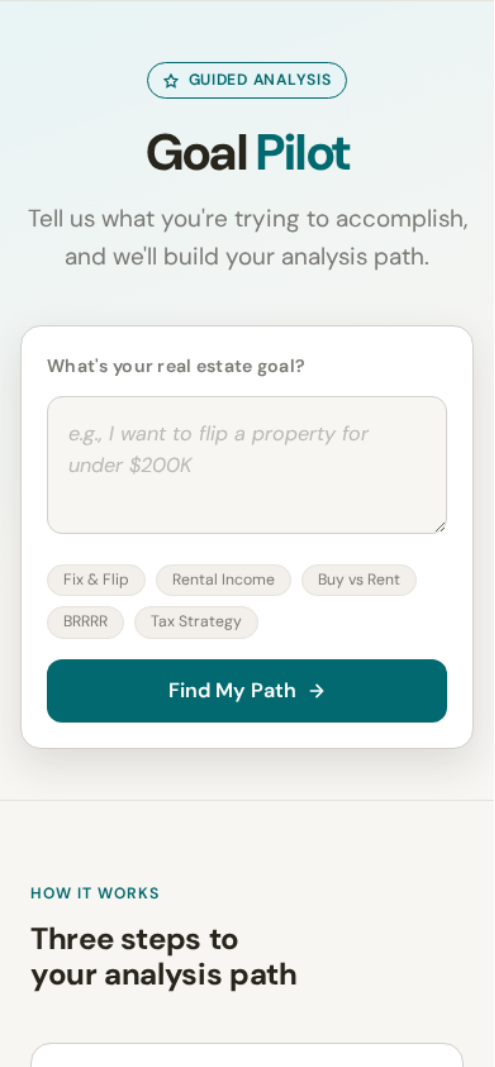
Pricing Section Close-Up



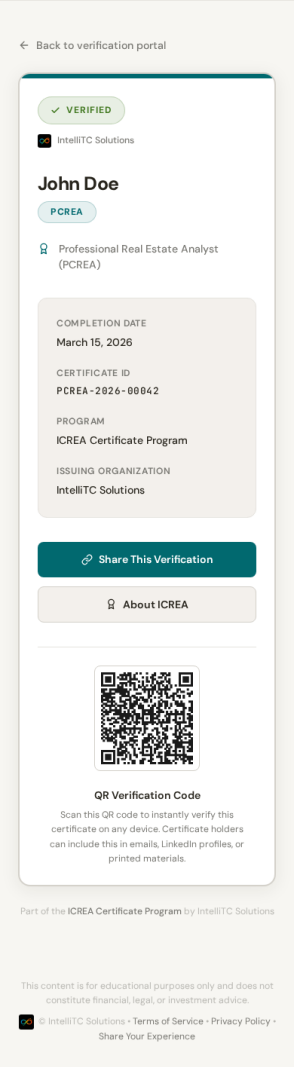
Licensing tiers — Starter ($2K), Professional ($5K, highlighted as "Most Popular"), Enterprise ($10K).

6. Mobile Responsiveness

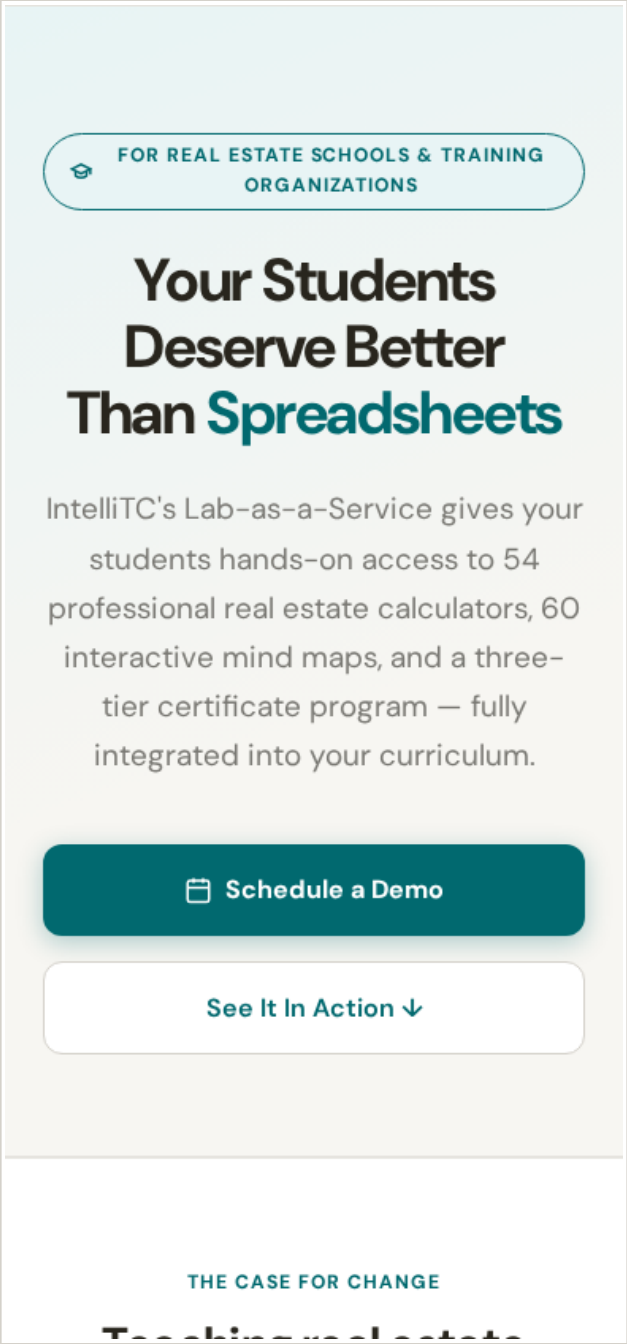
All four features are fully responsive. Below are representative mobile screenshots at 390 × 844 (iPhone 14 viewport).



Goal Pilot — mobile landing



Verification — mobile card



Schools page on mobile — stacked layout, full-width pricing cards.

Next Steps for Beta Testers

1. Test Goal Pilot — Try each of the 5 quick-fill chips and at least 3 free-form queries. Confirm tool links resolve correctly.
2. Test Certificate Verification — Visit the verification portal. Try the landing state, then construct a test URL with all 4 parameters. Verify the QR code scans correctly on a mobile device.
3. Review CE Equivalency — Confirm the tier-to-CE-hour mapping is reasonable. Flag any organization alignment claims that seem overstated.
4. Review Schools Page — Evaluate the Lab-as-a-Service pitch from an institutional buyer's perspective. Test the contact form (submits via email).
5. Check Dark Mode — Toggle dark mode on each page and verify all elements render correctly.
6. Mobile Testing — Open each page on a phone or tablet. Verify layout, readability, and touch targets.

FEEDBACK

Send all feedback to testimony@intellitcsolutions.com. Include the feature name, what you tested, what happened, and what you expected. Screenshots are always welcome.
